WORKSHOP EQUIPMENT

GEDORE WORKSHOP FURNITURE...

+ BEST-POSSIBLE QUALITY FOR THE HIGHEST DEMANDS PLACED

- ✔ Use of the most up-to-date machinery and environmentally-friendly production processes
- ✔ The basis is tightly-controlled and choice sheet steel
- ✔ Experienced and reliable specialists vouch for precision-like processing
- ✔ Stringent quality checks after each production step ensure a constantly high level
- ✔ Best-possible industrial quality for those extreme levels of constant use and conditions subjected to
- ✔ Professional service up to the development of special customised tools

+ GEDORE WORKSHOP FURNITURE... FORM AND FUNCTION PERFECTION

- ✔ Whether mobile or stationary: indispensable aids, in fact, for the rough-and-ready of workshop routine
- ✔ Extremely robust, scratch and impact-resistant, corrosion-proof and easy to care for
- ✔ Durable and highly resilient with stability of the highest-order
- ✔ Numerous models to reflect use and individual requirements
- ✔ Varied, optional accessories available for flexibly extending all the basic models
- ✔ Specific colours (RAL) and outfits (e.g. stainless steel, oil/acid-resistant etc.) on request

+ GEDORE WORKSHOP FURNITURE... INTELLIGENTLY DESIGNED – DEPENDABLE UNDER EXTREME USE

- ✔ Vertical and horizontal forces are calculated with precision
- ✔ Unloaded weight optimization from a finely-tuned material input
- ✔ Robust, stable 0.88 mm thick sheet steel structure, supporting elements of a 1.00 mm metal thickness, a 2.00mm metal thickness for the heavy-duty chassis
- ✔ Precision spot welding ensures components stay permanently fixed
- ✔ Tool trolleys have it all with their special GEDORE chassis and GEDORE heavy-duty wheels
- ✔ Durable and highly resilient with stability of the highest-order

GEDORE WORKSHOP FURNITURE... + ... TIDY LOOK, UNCLUTTERED AND ALWAYS AT HAND

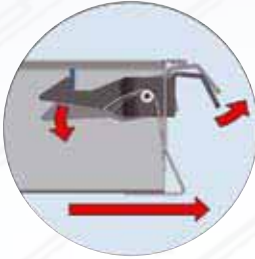

- ✔ Ready to be used straight after delivery: simply unpack and screw on the manoeuvring handle
- ✔ Whether a mobile or stationary guardian of tidiness: each tool has its own place here
- ✔ Modular arrangement systems make daily routine that much easier (visual check/tool missing)
- ✔ Compact tool assortments make selection easier
- ✔ Customised equipment/tool sets in module systems and/or trolleys/benches in company design/colours

+ THE GEDORE CHARACTER

Individual drawer locking (not applicable to 2003)

- In addition to the central locking, each drawer has its own separate latch to prevent unwanted opening, when being moved
- The latch is automatically released by a tilting bar when the drawer is opened
- The single latch automatically engages when the drawer closes

Central locking

- One central lock for all drawers and doors
- Safe and easy handling

Ball-bearing drawer slides

- The ball-bearing drawer slides ensure safe and easy sliding of the drawers, even when loaded to full capacity
- Full extension improves access

Load capacity

- The load capacity of the drawers is 40 kg
- The combined weight of our two mechanics' tool sets, S 1004 M and S 1007 M, is 40 kg
- One drawer could hold the full weight of all 250 tools!
- Models 2003, 2004, 2005, 1502, 1504, 1504 XL: The bottom drawer is designed as heavy-duty drawer, load capacity 60 kg

Square perforation 9 x 33 mm

- The square perforation in the side walls enable quick access to frequently used tools
- GEDORE holders and trays are simply clipped in

Heel protection

- All-round heel protection by rounded edges on the underside allows the tool trolley or workbench to be safely pulled or pushed

The GEDORE chassis

- The trapezoidal GEDORE chassis uniformly distributes the applied forces.
- The axle is mounted on triple bearings and is securely connected to the trapezoid.
- The third, central bearing prevents the axle bending under load.
- The special axle design ensures that the GEDORE high-performance rollers always roll on the full faces of their treads.
- Even under full load, the rollers retain their smooth running properties and cannot shed their tyres.
- Vertical and horizontal forces are absorbed by the positive-fit trapezoidal design.

Smooth running and high-performance wheels

- The GEDORE smooth running and high-performance wheels keep, even under maximum load, the following features: Smooth running, track-keeping and manoeuvrability!

Total braking system

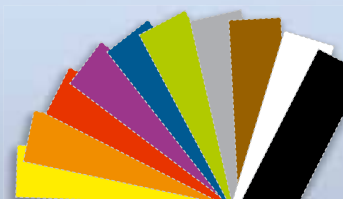

- Prevents unwanted movement and turning of the wheel
- Ensures safe parking of the tool trolley or workbench

Impact protection

- The vertical or horizontal impact protection protects the tool trolley and anything it comes into contact with from damage
- It also protects other equipment in the workshop or vehicles from inadvertent contact

Powder coating

- GEDORIT blue and GEDORIT silver are the short names for the two types of powder paint, specially developed for GEDORE
- This coating method guarantees a high level of corrosion protection, combined with tough scratch resistance
- Powder coating is kind on the environment. Unused powder is reclaimed in the plant. No solvent is used
- Special colours available on request

ACCESSORIES TOOL TROLLEYS / WORKBENCHES

1500 BL

LIGHT STRIP FOR TOOL TROLLEYS

- Light strip to provide ideal illumination of drawers, particularly on GEDORE tool trolleys
- A magnetic strip securely attaches the lighting to the trolley body
- Positioned above the drawers, the ten powerful LEDs illuminate the opened drawers
- This makes it easier to locate the right tool in dark or low lighting conditions, preventing the risk of cuts from chisels, knives or saw blade
- The light strip is also suitable for use on folding back panels and tool chests
- Easy battery change (three AAA batteries)
- LED technology for low power consumption and long life
- DBGM (German utility patent)
- The light strip can be used with the following GEDORE products: 2004, 2005, 2430, 2500, 3010, 2525, 2545, 2546, 2550, 2535, 3000, 1504, 1502, 1504 XL, R 1504, 1505, B 1500, R 1500, B 1510-1 to -4, 1405, 1400, 1401

ANTI-SLIP MAT Products sold by the metre

- For all drawers in GEDORE tool trolleys and workbenches
- Various areas of application: Workshop, household, car, spare time...
- Enormous slip resistance on many different surfaces
- Can be cut to size
- Resistant to temperatures from -30°C to +100°C
- Melting point approx. +250°C
- Flame resistant
- Resistant to chemicals
- Shock- and noise absorbing
- Dimensions: W 475 x L 2000 mm
